

## COMPANY STATEMENT ON CONFLICT MINERALS

Teledyne Technologies Incorporated, including its subsidiaries and business units (“Teledyne”), is committed to responsible sourcing from its suppliers and expects its suppliers to have policies and procedures in place to determine whether parts and products supplied to Teledyne are DRC conflict-free (i.e., do not contain metals derived from “conflict minerals”). Conflict minerals are columbite-tantalite (tantalum), cassiterite (tin), gold, wolframite (tungsten), or their derivatives that directly or indirectly finance or benefit armed groups through mining or mineral trading the Democratic Republic of the Congo or an adjoining country. Teledyne expects its suppliers to establish policies, due diligence frameworks and management systems consistent with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas that are designed to accomplish this goal.
